Interreg

Co-funded by the European Union

Meuse - Rhine (NL-BE-DE)

WORKSHOP

A Smarter Meuse-Rhine area

Corda Campus – 28.09.2022

Anna OZEROVA - Regional Antenna Limburg (NL)

Frederik LOY - Regional Antenna Limburg (B)

Interreg Meuse-Rhine?

Interreg Meuse-Rhine (NL-BE-DE)

What is Interreg?

Interreg is part of the European Union's cohesion policy and is financed by the European Regional Development Fund (ERDF). This fund strengthens economic and social cohesion in the European Union by eliminating imbalances between regions and promoting cross-border cooperation.

6th consecutive program, named Interreg Meuse-Rhine (NL-BE-DE)

Ministerium für Wirtschaft, Innovat Digitalisierung und Energie des Landes Nordrhein-Westfalen

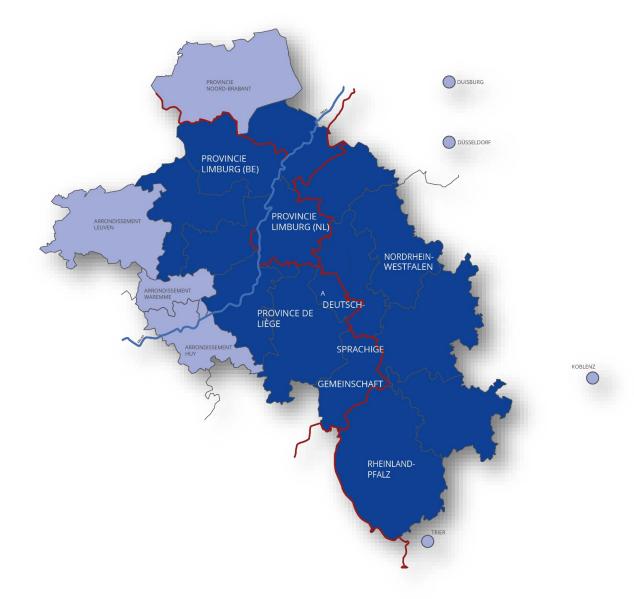

Planned cooperation according to the principle of "Functional Areas" with:

- Arrondissement Leuven (B)
- Arrondissements Huy and Waremme (B)
- Region Zuidoost-Noord-Brabant (NL)
- Düsseldorf, Duisburg (DE)
- Koblenz, Trier (DE)

→ Does not affect PO 6!

Content of the Programme

Our 5 grand societal challenges

4 priorities

A smarter Europe innovative and smart economic transformation

A greener, low-carbon Europe

A more social
Europe implementing the
European Pillar
of Social Rights

A Smarter Meuse-Rhine area

Our 5 grand societal challenges

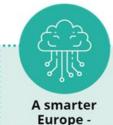

4 priorities

of Social Rights

Priority 1

A Smarter Meuse-Rhine area:

- Promoting Industry 4.0 and key enabling technologies
- Developing and enhancing research and innovation capacities and the uptake of advanced technologies
- Enhancing sustainable growth and competitiveness of SMEs and job creation in SMEs, including by productive investments
- SO 1.ii en 1.iii

Developing and enhancing research and innovation capacities and the uptake of advanced technologies

- Industrial Transition
- Healthier inhabitants

Developing and enhancing research and innovation capacities and the uptake of advanced technologies

- development of innovations offering solutions, by supporting innovation and scaling-up projects between collaborating companies and/or knowledge institutions and/or healthcare organisations;
- market-oriented and/or cross-industry collaboration between SMEs and knowledge institutions on innovative solutions, in which public and private R&D capacity is linked: development of living labs, new facilities and instruments for innovation processes;
- (further) development of innovative cross-border value chains in order to market innovations within the transitions, taking into account the interoperability of the value chain;

Developing and enhancing research and innovation capacities and the uptake of advanced technologies

- support for living labs, and demonstration projects in the real environment, in which companies, knowledge institutions and end users work together on innovations that contribute to the societal challenges;
- social innovation projects aimed at achieving social renewal within the
 two societal challenges central to this SO. Examples: renewal processes in
 the field of cooperation in companies, aimed at improving production,
 new ways of thinking about topics and making trend-breaking ideas
 tangible, but also in governments and elsewhere in society to promote
 social cohesion or dynamism in relation to technological innovation;
- personalised health care (development of new diagnostic and therapeutic devices, value based health care.

Enhancing sustainable growth and competitiveness of SMEs and job creation in SMEs, including by productive investments

- Industrial Transition
- Healthier inhabitants
- Green Transformation

Enhancing sustainable growth and competitiveness of SMEs and job creation in SMEs, including by productive investments

- Collaboration: knowledge and training institution with the industry (lifelong learning)
- Development and implementation of an innovation scheme, stimulating sustainable cross-border development and cooperation on promising innovation projects between SMEs (business-to-business)
- Innovation projects adapting to changing circumstances, creating new solutions, generating new business;
- Digitalisation of products, processes and services (e-commerce and e-business);
- Cross-border innovation processes, technology transfer and business aimed at introducing new products and services to the market

Getting started

Getting started

Define theme and check compatibility with program objectives

Reflect on specific challenges, necessary impacts and corresponding products/services (deliverables)

- Weigh up costs and financing: 50% EU contribution, raise remaining 50% yourself (possibly public co-financing -> contact the Regional Antennas)
- Monitor information / updates of the program: <u>Home | Interreg Euregio Maas-Rijn (interregemr.eu)</u>

Getting started

If you need support, contact your **Regional Antenna**:
